

FAQ's

HOW DOES ELITE IQ WORK?

The Elite iQ device offers quick, easy and personalized laser hair treatments using smart technology. The Elite iQ device is equipped with the Skintel® device, the only FDA melanin reader on the market.

The Skintel device is equipped with technology that reads your precise skin type, so we can safely treat all skin types and areas of the body including under arms, legs, bikini area and back - making the Elite iQ device the perfect hair removal solution for men and women.

IS THIS TREATMENT RIGHT FOR ME?

The Elite iQ device can be safely used on all skin types and anywhere on the body including face, back, chest, arms, underarms, bikini area and legs.

Talk with your provider to discuss if you are a candidate for Elite iQ treatments.

WHEN WILL I SEE RESULTS?

You can expect to see a gradual decrease in hair thickness and the amount of hair in the area treated.* Since hair removal treatments only targets hair in the active phase of growth, multiple treatments are often needed for complete removal. Speak to your provider for a consultation to discuss treatment areas and number of treatments required.

**Individual results vary*

HOW MANY TREATMENTS WILL I NEED?

The amount of treatments and treatment times may vary, depending on the size of the area, but typically take less than 30 minutes! Speak to your provider for a consultation to discuss treatment areas and number of treatments required.
